What would the estimated balance be after 24 months based on a £1,000 deposit?	The estimated balance after 24 months based on a deposit of £1,000 would be £1,080.20. Additional Information	Interest is paid gross without tax deducted. Some savers may be required to pay tax on their savings interest - this should be arranged directly with HMRC through your tax return. Your tax treatment will depend on your individual circumstances and may be subject to change in the future. The Society reserves the right to withdraw this product without notice at any time. We will contact you prior to your account maturity and outline your options regarding your Bond account.

*The gross rate (PA) is the rate before deducting tax at the rate applicable to savings income. The annual equivalent rate (AER) is a notional rate which illustrates what the gross interest rate would be if the interest was paid and added to the account annually.
